SUPERINTENDENT'S REPORT

Jefferson, N. H., Feb. 1, 1941.

To the School Board and Citizens of Jefferson:

Following is submitted my seventh annual report, with school statistics for the last complete school year.

Schools opened this present year with the River-ton and Highlands closed, and pupils from those schools being transported to the Meadows and Hill Schools. For educational efficiency, this seems to be a satisfactory arrangement, as the school system can thus be operated with fewer grades to a teacher, and the lower grades can be handled in separate class rooms, apart from the higher grades. With a reduced number of grades and classes, the teacher is free to spend more time with each class.

Your Superintendent has made weekly visits to your schools. Classes and individual pupils have been observed, and the work checked with other school systems. Good progress has generally been made.

The attendance for all schools for the last complete year averaged 94.7, a gain of 2 per cent over last year, and a most excellent record. The best results cannot be attained without good attendance.

The class rooms, halls, and basement of the building at the Hill are in need of painting and some general renovation.

It is recommended that sinks be installed at the Meadows School.

The School Board and Superintendent have estimated a budget for 1914-42, and this estimate will be found in another part of the report.
